Student's Feedback of Faculty

Date:27/02/2018

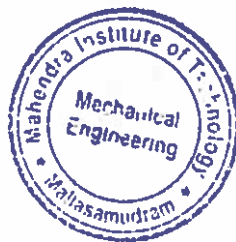

Process

- Student Feedback is valuable for identifying areas for instructional improvement because simple changes can help motivate students and enhance student learning.
- The feedback of faculty is taken twice in every semester, one at the mid semester and the other at the end of semester.
- The percentage of feedback received is calculated for each item in the feedback form.
- If the feedback falls below 70 % corrective actions are taken
- The Head of the Department will also provide some suggestions for improvement based on the feedback if required.

Feedback Form

Process of Feedback Collection and Analysis

- A standard feedback questionnaire is collected from the students every semester course wise.
- The system of feedback collection is automatic
- The questionnaire is prepared covering all areas of faculty's including ability of teaching, quality of learning, class-handling attitude, acceptance authority by students, etc where students are asked to record their opinion directly
- The feedback is then quantified
- All the parameters mentioned in the feedback form will be analyzed.
- Ability of teaching with respect to each item and comprehensive ability of the teachers will be analyzed
- All the comments written by the students in the feedback forms will be communicated to the respective faculty members along with their feedback levels to know their strengths and weaknesses and to enhance their teaching skills

Student's Feedback of Faculty

Date:27/02/2018

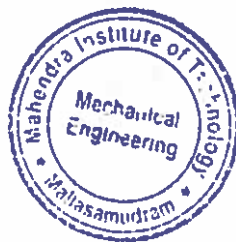

Process

- Student Feedback is valuable for identifying areas for instructional improvement because simple changes can help motivate students and enhance student learning.
- The feedback of faculty is taken twice in every semester, one at the mid semester and the other at the end of semester.
- The percentage of feedback received is calculated for each item in the feedback form.
- If the feedback falls below 70 % corrective actions are taken
- The Head of the Department will also provide some suggestions for improvement based on the feedback if required.

Feedback Form

Process of Feedback Collection and Analysis

- A standard feedback questionnaire is collected from the students every semester course wise.
- The system of feedback collection is automatic
- The questionnaire is prepared covering all areas of faculty's including ability of teaching, quality of learning, class-handling attitude, acceptance authority by students, etc where students are asked to record their opinion directly
- The feedback is then quantified
- All the parameters mentioned in the feedback form will be analyzed.
- Ability of teaching with respect to each item and comprehensive ability of the teachers will be analyzed
- All the comments written by the students in the feedback forms will be communicated to the respective faculty members along with their feedback levels to know their strengths and weaknesses and to enhance their teaching skills
